

## Homonym Concentration

### Directions:

1. Please cut the word cards apart.
2. The word is the "face" of the card. When you make the grid, you want to see the back of the card.
3. Place the word cards face down in a grid like Concentration.

Word	Word	Word	Word	Word	Word	Word	Word
Word	Word	Word	Word	Word	Word	Word	Word
Word	Word	Word	Word	Word	Word	Word	Word
Word	Word	Word	Word	Word	Word	Word	Word

4. Select two cards. If cards are a homonym pair, then keep the cards. If not, turn cards over and continue to play.
5. Play continues until all cards are uncovered.

### **Example:**

A homonym pair is two words that sound the same when you say them, but when you write them, they are spelled different. "By" which means to be near someone or something's side, and "buy" when you pay money at a store, are an example of a homonym pair.
