

Directions:

1. Each time you roll, choose to roll 1 or 2 dice. If you roll two dice, add the values together to create one multiplier.
2. Multiply this multiplier by each number on the grid page, 1-12
3. Once you have found the products for all of the problems (answers), go to the number grid and mark the multiples of the number that you rolled with a crayola.
4. You will discover that some numbers will be marked more than one time.
