

> 100	Exactly 100	< 100

Directions:

1. Requires two-12-sided dice and two 6-sided dice.
2. Roll all four dice.
3. Try to make an equation, using addition, subtraction, multiplication, and/or division, which will fit in each of the columns above, using the same numbers.
4. Player scores one point for $>$, one point for $<$, and 3 points for exactly 100.

***Example:**

Player rolls a 5, 5, 6, 4

Exactly 100: $5 + 5 \times 6 + 4$

Less than 100: $5 \times 6 + 5 - 4$

More than 100: $5 \times 6 \times 5 - 4$
